World Civilizations

World Civilizations, AP® Edition encourages students to grasp concepts and patterns across a huge breadth of time and space and helps to facilitate global understandings and connections in the classroom. This text captures a truly global approach by discussing and comparing major societies and focusing on their interactions. World Civilizations, AP® Edition presents a clear factual framework while stimulating analysis about global contacts, regional patterns, and the whole process of change and continuity on a world stage. This text identifies six periods in world history. Each period is determined by three basic criteria: a geographical rebalancing among major civilizational areas, an increase in the intensity and extent of contact across civilizations (or, in the case of the earliest period, crossregional contact), and the emergence of new and roughly parallel developments in many major civilizations. Based on \"comparative work and focuses on global processes,\" this text helps students see the history of the world as one based on multiple disciplines. - Publisher.

World Civilizations

Designed for introductory-level survey courses in World History. The primary goal of World Civilizations is to present a truly global history--from the development of agriculture and herding to the present. This global world history text emphasizes the major stages in the interactions among different peoples and societies, while at the same time assessing the development of major societies. Encompassing social and cultural as well as political and economic history, the book examines key civilizations in world history. World Civilizations balances this discussion of independent developments in the world's major civilizations with comparative analysis of the results of global contact.

Kaplan's, 5-Steps, Crash Course and other review books are great resources for the last month before the exam, but the Tamm's Textbook Tools series of student activity books are an accompaniment all year long. This AP* World History companion is filled with vocab, activities and assignments that follow the Stearns, Adas, Schwartz and Gilbert Seventh Edition of World Civilizations for all 37 chapters. They can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be assigned as regular homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers began putting their content online, a niche for traditional classwork was opened, a void filled by this series. And whether the textbook itself is written in ink or electrons, many students still find it more valuable to write and keep notes for themselves on paper, and portfolios still matter. The activities in this workbook challenge students to apply the concepts, give examples, and diagram every chapter. Find TTT on FB.
